# CALL 2012 TOI priority “Improving QA systems in VET”

Under this priority, projects should contribute to the exploitation of former projects (DOI or other LdV-projects) or any innovative approach in the field of QA in VET. The aim is to prepare, organise and ensure the transfer of guidelines, tools and products that contribute to the implementation and use of the European Quality Assurance Reference Framework.

# Included are instruments, procedures and methods established for:

- the design of a national approach for improving the quality of VET systems and developing the use of the EQARF
- the use of self assessment and peer review in the quality assurance process
- the development of the use of indicators in annex 2 of the EQARF

## 4 larger themes

- transfer, use and dissemination of the results of the work of the ENQAVET project, in particular
  - > the outcomes related to guidelines for supporting quality assurance in VET  
<http://guidelines.enqavet.eu/>
  - > the outcomes related to indicators  
<http://www.eqavet.eu/gns/what-we-do/working-groups/working-group-2/working-group-2-phase-1.aspx>

- transfer/exploitation of the results of former projects on the implementation of the "Common Quality Assurance Framework" (CQAF) through peer review

- transfer and exploitation of innovative and relevant materials produced under Leonardo da Vinci projects in the field of quality assurance in VET
- See e.g. QALLL best practice projects  
[http://www.qalll.net/good\\_practice\\_projects/](http://www.qalll.net/good_practice_projects/)

- Update of former pertinent, relevant and innovative projects outcomes related to the implementation of the CQAF (Common Quality Assurance Framework) in view of adaptation to the EQARF
